SPRING - SUMMER, 1985

Dear Alumni:

Spring has sprung here in Rhode Island and so far all looks well for Yawgoog's 70th season. Yawgoog's Reservation Director, Al Mink, has the staff all signed up; all but half a dozen of Yawgoog's troop sites have been leased; the pond is full; and, Ranger, Al Gunther, has all items ready for "GO"! This is an anniversary year at Yawgoog -- it's the camp's 70th Birthday, the Boy Scouts of America's 75th Birthday and the Yawgoog Alumni Association's 5th Anniversary. So, HAPPY BIRTHDAY TO ALL OF US FROM ALL OF US! This is the Alumni Spring Newsletter and there is lots of news - so sit back, relax and read on.

## 5TH ANNUAL ALUMNI REUNION AND BARBEQUE

SATURDAY, AUGUST 24th, 1985, is the date. YAWGOOG is the place. ANYTIME in the afternoon is the time. FIVE DOLLARS is the cost. (Use Enclosed Reservation). The "Gals" of course, are included. FIVE O'CLOCK is the BARBEQUE. All afternoon we will have bus trips around the reservation, plenty of opportunities to shoot the breeze with your old buddies and a lot of "remembering when".

## PROJECT III - YAWGOOG'S OWN MUSEUM

Your Alumni Advisory Committee has given long and deep study into this Museum Project. It has brought into its membership former Yawgoog campers who have specific qualities along the needed lines, such as an Architect, a Museum Director, a Librarian, a Cabinet-maker and a Preservationist. We have journeyed to Manchester, New Hampshire, to visit the nationally recognized Lawrence E. Lee Boy Scout Museum at Camp Carpenter in the Daniel Webster Council. There we met with their Advisory Committee. We came away with many ideas and some rather definite plans as to how we should proceed.

After additional meetings and more in-depth and long range thinking, we have come up with these fairly definite recommendations:

1. We should collect any and all items connected with Scouting but the items must be free of any strings or restrictions.
2. We should specialize primarily with the collection of items directly related to Camp Yawgoog. Secondly, with items relative to Scouting in Narragansett Council and lastly, with items relative to any other Regional, National or International Scouting interest.

3. We should, as soon as possible and hopefully before our Annual Reunion this coming August, have much material that has already been donated on exhibition in some area adjacent to the Bucklin Memorial Building.
4. All donated material would be securely stored in adequate containers, catalogued and recorded as it is donated.
5. Until such time as we know more about the amount and type of items we may receive, their interest and their displayability, we should not consider spending large sums of money renovating any room or area in any existing building at camp.
6. When and if a great deal is received that should be displayed in more permanent and larger quarters, then, and only then, should serious consideration be given to a campaign to finance the construction, maintenance, supervision and operation of a separate, independent Museum Building with all that goes along with such a project. This would require an endowment similar to what the Lee Museum has gone through in its first decade of operation as well as reliable and dedicated volunteers to perform all the works necessary to such an operation.

So, right now, we are very anxious to receive your memorabilia and thus learn what we need for display. We will catalogue and securely store this valuable material so let it come. We will acknowledge all gifts. Send or bring them to Camp Yawgoog Alumni Museum, c/o Camping Services, Narragansett Council, BSA, 175 Broad Street, Providence, Rhode Island, 02903. Yes, we do want as much of your Yawgoog and Boy Scout memorabilia as you are willing to give us. And, of course, we are still counting on you for financial support for both the Alumni Membership and the Project III (Museum).

#### YAWGOOG IS STILL GROWING!!!

For years we have been wishing we could get the Gordon Family to sell us some or all of their 850 acres just north of Anthony Acres and Hidden Tract. With the passing of the elder Gordon, the sons have agreed to sell us 250, plus or minus, acres. This area includes "Grassy Pond" which is a nature lovers' paradise. The whole area is full of deer, fox, rabbits and even a bobcat or two.

The plan is that all tent camping now will be done in this new area, thus relieving the erosion, compaction and burying up wood supply from the summer camping areas of the reservation. All of this new land runs from Route 138 west to the state line of Connecticut State Green Falls Reservation. This new land, with the Connecticut State Park on our western border, bring to nearly 5,000 acres of protected and hikeable land. We should be exceedingly happy about this growth. Who knows, maybe the Alumni could have a Project IV helping with wells and open-sided shelters. Anyone want a named memorial?

#### YAWGOOG GATEWAY SWINGS OPEN FOR SENIOR CITIZENS

May 8th, 1985, the busses, vans and cars drove through the T. Dawson Brown Gateway to enjoy the first "Social Security Senior Citizen Set Outing" at our "Adventure Land Forever". With all our marvelous facilities lying unused on hundreds of school days during the fall, winter and spring, the Council has approved the sharing of these facilities with Rhode Island Seniors. To start with, we will condense the available days to two or three weeks during the late spring and early fall. If the popularity demands, we can open up more time. Already some Seniors are asking about staying overnight. We are playing all this new adventure community slowly as it is a new experience

to Scouting. These Seniors will attend only as "groups" (troops) from organized agencies, churches and Senior meal sites. They will supply their own leadership and pay the same off-season fees that the troops now pay. In most cases, they will supply their own food. We may do a small catering service thanks to the Campmaster Corps.

HERE ARE SOME OF THE SENIORS ENJOYING CAMP YAWGOOG!

#### ARTHUR W. LEIDMAN DIES

Narragansett Council lost one of its most loved and admired Scouters last January when Art Leidman died after a lengthy illness. He joined Troop 1 Centerville in 1918 and became a Scout in Troop 4 Cranston and its Scoutmaster in 1924. He joined the Professional Staff in April of 1928 and 29 years later asked to be the Ranger at the Champlain Scout Reservation, which he served for 10 years until his retirement on January 1, 1967. When you think of Art, those famous Council Jamborees at Mt. Hope, Quonset and Yawgoog all pop up into your mind's picture. Then there were the famous Bean Hole Bakes which the old Pawtuxet Valley perfected under his leadership. Those Scoutmasters' Training Courses where you really camped out and cooked and did Scoutcraft out in the wide open spaces. Art was a true Scouter, loved the outdoors, loved Nature and Conservation and was probably the Council's most famous teacher. He shared every bit of his mind and body for the good of boys. One often wonders if he ever got tired because he was all over the State on all days of the week and at all hours of the day and night. At least 200,000 men and boys in Rhode Island are better adults now thanks to Arthur. His loving and sharing wife, Astrid, still lives in their home at 118 Scenic Drive, Cranston, Rhode Island, 02920.

#### "GUS" ANTHONY - ONE PROUD OLD BALD EAGLE!!

"Gus" Anthony says, "Don't let anyone tell you Yawgoog isn't the same as it used to be, I think in many ways that it is better!" He is so proud these days because the Alumni Association, it's three projects and the acquisition of the Gordon Property were all in his dreams. Right now he is also very proud because he has been inducted into "The Rhode Island Heritage Hall of Fame" for his outstanding services to the thirteen different community agencies in which he is active.
